Ser. No. 10/772,810
Response and Amendment "A" dated August 14, 2007
Reply to Office Action of April 5, 2007

This listing of claims replaces all prior versions, and listings of claims in the application:

Listing of Claims:

1.   (currently amended)   A camera comprising:

an image acquiring means;

equipment that determines a physical position;

a database indicating <u>locations of</u> municipalities; and

an application that uses the database, determines in which municipality the physical position is located and associates data indicating <u>a name of</u> the municipality with an image acquired by the image acquiring means.

2.   (original)   The camera of Claim 1 wherein the image acquiring means, the equipment that determines a physical position, the database, and the application are all physically located in a single housing.

3.   (original)   The camera of Claim 1 wherein the equipment that determines a physical position is a GPS unit.

4.   (original)   The camera of Claim 1 wherein the database associates coordinates with municipalities.

5.   (original)   The camera of Claim 1 wherein municipalities includes cities, towns, and villages.

6.   (original)   The camera of Claim 1 wherein the application associates data indicating a state with the image acquired by the image acquiring means.

7.   (original)   The camera of Claim 1 wherein the database also indicates states.

8.　　(currently amended)　A method of operation for photography comprising:

acquiring an image with a camera;

with position determining equipment associated with the camera, acquiring information indicating a position associated with the camera;

determining a municipality in which the position is located; and

associating data indicating <u>a name of</u> the municipality with the image.

9.　　(original)　　The method of Claim 8 wherein the position determining equipment comprises a GPS unit.

10.　　(original)　　The method of Claim 8 wherein the position determining equipment is installed in the camera.

11.　　(original)　　The method of Claim 8 wherein the position is expressed as geographic coordinates.

12.　　(original)　　The method of Claim 8 wherein the municipality is determined using a geographic database installed in the camera.

13.　　(currently amended)　The method of Claim 8 further comprising:

adding text indicating the <u>name of the</u> municipality to the image.

14.　　(currently amended)　The method of Claim 8 further comprising:

printing the image with text indicating <u>the name of</u> the municipality in the image.

15.　　(original)　　The method of Claim 8 wherein the municipality in which the position is located is determined using a remotely located geographic database.

16.   (currently amended)   A method of operation for photography comprising:

using a database located with a camera, associating data indicating a municipality with an image taken by the camera; and

displaying the image with text indicating a name of the municipality in the image.

17.   (original)   The method of Claim 16 further comprising:

using a position determining unit associated with the camera to determine a position of the camera when the image is taken; and

with the database, using the position to determine the municipality.

18.   (original)   The method of Claim 17 wherein the position determining unit includes a GPS unit.

19.   (original)   The method of Claim 17 wherein the position is expressed as geographic coordinates.

20.   (currently amended)   The method of Claim 16 further comprising:

printing the image with text indicating the name of the municipality in the image.

21.   (currently amended)   A method for associating meaningful location information with photographs comprising:

taking a photograph;

acquiring position information when the photograph is taken;

associating the position information with a data representation of the photograph;

using a geographic database to determine a municipality in which the position is located; and

associating text indicating a name of the municipality with the picture.

22.   (original)   The system of Claim 21 wherein the photograph is taken with a phone equipped with a camera as a feature.

23.   (original)   The method of Claim 21 wherein the geographic database is located on a remotely located server.

24.   (original)   The method of Claim 23 further comprising:

connecting a camera that contains the data representation of the photograph to a computing platform; and

using the computing platform to communicate over a data network with the remotely located server.
